

December 05, 2015

Dear Homeowner,

This is special invitation for you to attend our FIREWISE How To Have A Firewise Home event to be held at Noxubee County MSU Extension Office on January 13, 2016. This program is part of a new initiative led in our state by the Mississippi Forestry Commission to achieve fire safe planning and development in the wildland/urban interface ... that fringe area of our communities where homes are frequently damaged or destroyed by wildland fire. Evaluations for similar field days in other states indicated that the participants found the information and exercises very beneficial.

As our Mississippi public continues to build homes in areas that have traditionally been forests or wildlands, disastrous wildfires occur more and more frequently. We will likely continue to experience damaging wildfires in the wildland/urban interface until people begin to work together to solve basic community planning issues at the local level.

The How To Have A Firewise Home program is a one-half day event, bringing together citizens, business and community leaders involved in planning, financing, building, sustaining and protecting communities in the wildland/urban interface. Participants will learn about why homes burn, various wildland fuel reduction techniques and how to assess the fire danger of their own home.

I have enclosed directions and a map to the program site at Noxubee County Extension Office, 107 Adams St., Macon, MS and a pre-registration form. Please complete the pre-registration form and call 662-762-4326 by January 12 to reserve your place. We believe that this program may have a significant impact on wildland protection in your area. If you cannot personally attend, please designate someone to represent you. There is no charge for your participation and lunch will be provided. Pre-registration is a must for the noon meal head count.

Registration will begin at 8:30 a.m. The program will begin promptly at 9:00 a.m. and end at approximately 1:00 p.m.

We value your participation in the program and look forward to seeing you on January 13, 2016. If you have any questions, please feel free to contact Crayton Coleman at 662-762-4326.

Registered Foresters attending the field day will be eligible for 2.0 CFE Hours Category 2, Loggers will receive 2.0 hours in Category II and Realtors will receive 3.0 hrs of elective Real Estate Course (10181). Professional credits are not available for teachers and professional disciplines.

Sincerely,
Harry Patterson
NE MS RC&D
